# Perfects

Here are links for some of the background to my work in progress novel Perfects and some of the games and short fiction that I have also written in the same setting.

- National Police
  - Operation Hawkeye
- Hephaestus Genetics
- Genetically Modified Humans Act 2044
- smartphones
- cars
- space
- Characters

The *Perfects* universe is, I hope, a plausible (but unlikely) future for where we are in 2014. The uk still exists and England is reluctantly still in the European Union (ironically held there by the Scots, Welsh & Northern Irish in a narrow margin referendum result). The UK has given the world a cure for cancer (albeit shared with other nations and largely funded by others, but the lab was in Cambridge); cheap(er) space travel (Virgin Galactic came good) and a lesson in hubris.
