

Chestnut Lodge

Summary

Chestnut Lodge is the semi-mythical ancestral archetype and primary sacred site of the [Clewgist Faith](#). Located, or believed to be hidden, within the [Kingdom of Affaraon](#), it serves as the spiritual blueprint for the meeting places of the Yendorian sect of Clewgites. In late 774 AM, the site shifted from a point of theological debate to one of critical narrative importance when the divine manifestation of [Clew](#) explicitly commanded [Yngvild the Fierce](#) to seek it out as the next stage of her heroic development.

Description

Sectarian Interpretations

The status of Chestnut Lodge is a point of significant friction between the two primary branches of the Clewgist faith.

- **The Yendorian Branch:** These adepts, who focus on working in harmony with nature and viewing reality as a “garment of illusion,” claim that their biennial meeting houses (such as the Willow Lodge) are modelled directly after the original Chestnut Lodge. They treat the Lodge as a physical gateway to the “secret masters” [Adepts](#) hope to reunite with.
- **The Estreham Branch:** Mainstream Clewgites, often drawn from military backgrounds and focused on martial discipline and practice, traditionally dismissed the Yendorian veneration of the Lodge as an idiosyncratic myth held by “hippie beatniks.”

The original Chestnut Lodge is believed to be a tangible destination requiring a pilgrimage, likely situated deep within the [Old Forest](#) near the fabled city of [Yendor](#).

Architectural and Symbolic Role

The Lodge is inextricably linked to the chestnut tree, which serves as the universal symbol for the Clewgist faith. While the exact coordinates are a closely guarded mystery of the highest grade [adepts](#), the site is described in prophecies as being “in among the ghosts of fallen spear carriers” and associated with “bird filled trees.” It represents the ultimate site for the denial of exterior reality and the attainment of spiritual perfection.
