

Recruitment

This is some PHP code for automatically working out the recruitment rules on Jim's IFU pages.

```
<php> echo "<form action=/doku.php/universe/ifu/applicants.php method=get>"; echo '<table
width = 80% cellpadding = 1>
```

```
<tr>
  <td align=left colspan = 4><h3>Advertising Selection</h3>
</tr>
<tr>
  <td><b>method</b>
  <td>
    <select name="ad">
      <option selected value="0">Choose one</option>
      <option value="1">Cheap planetnet (15cr/10days)</option>
      <option value="2">Specialist Journal (50cr/10days)</option>
      <option value="4">National media (250cr/10days)</option>
    </select>
  <td>
  <td><b>Location</b>
  <td>
    <select name="loc">
      <option selected value="0">Choose one</option>
      <option value="1">Just Settled/Subsistence</option>
      <option value="2">Very Poor/Poor</option>
      <option value="4">Below - Above Average - Planetside</option>
      <option value="6">Below - Above Average - Orbital</option>
      <option value="8">Rich or Very Rich - Planetside </option>
      <option value="12">Rich or Very Rich - Orbital </option>
      <option value="16">Colonial Capital - Planetside </option>
      <option value="24">Colonial Capital - Orbital</option>
      <option value="32">Homeworld - Planetside </option>
      <option value="48">Homeworld - Orbital </option>
    </select>
  <td><b>Duration</b>
  <td>
    <select name="time">
      <option selected value="0">Choose one</option>
      <option value="10">10 days </option>
      <option value="20">20 days </option>
      <option value="30">30 days </option>
    </select>
</tr>
```

```
</table> <input type=submit value="recruit">
```

```
</form>'; </php>
```
