My other websites

- [James Kemp's Garden & Books](#) - website (another dokuwiki installation) looking to gather up some book reviews and a sporadic blog of gardening goings on.
- [Billy Kemp RIP & Kemp Family History](#) - a tribute to my father and also the seedlings of the family tree that he started to sow in me and my brothers before he died.
- [James Kemp](#) - my main home page link, although it largely links to the other pages mentioned here.
